# Vibrator Screen Machine

Multi-Deck Series - Industrial Grading & Sorting

## AT A GLANCE

A heavy-duty vibrating screen for coke and coal. An eccentric shaft gives strong vibration and high screening efficiency, in 1 to 4 deck configurations.

## KEY SPECIFICATIONS

CONFIGURATION  
**1 - 4 Decks**

MOTOR POWER  
**7.5 - 15 HP**

SCREEN SIZE  
**Up to 5' x 16'**

MESH TYPE  
**High Carbon Steel**

## SPECIFICATIONS

|              |                                      |
|--------------|--------------------------------------|
| Decks        | <b>1, 2, 3 or 4 (Customisable)</b>   |
| Screen Sizes | <b>4'x12', 4'x16', 5'x16'</b>        |
| Motor        | <b>7.5 - 15 H.P. (Based on Load)</b> |
| Mesh         | <b>High Carbon Steel</b>             |
| Vibration    | <b>Eccentric Shaft Mechanism</b>     |
| Suspension   | <b>Heavy Coil Spring</b>             |

### DESIGN & DURABILITY

- ✓ Eccentric shaft vibration mechanism
- ✓ Heavy coil spring suspension
- ✓ Interchangeable mesh decks
- ✓ Adjustable amplitude via counterweights

## BUYING INFORMATION

|                      |                                                                          |
|----------------------|--------------------------------------------------------------------------|
| <b>Lead time</b>     | Made to order. Ask us for the current lead time.                         |
| <b>Warranty</b>      | 1 year, as on all our machinery.                                         |
| <b>Installation</b>  | Installation supervision and commissioning available.                    |
| <b>Custom builds</b> | Capacity, motor power and dimensions matched to your plant and drawings. |

---

## HOW IT WORKS

---

### 01 Material Feed

Mixed material is fed onto the top deck and spread across the full width of the screen cloth.

---

### 02 Stratification

Fines pass through the mesh to lower decks while oversize lumps ride over the top to the discharge chute.

---

### 03 Multi-Output

Each deck discharges its own size grade (e.g. +40mm, 20-40mm, -20mm) to separate hoppers or conveyors.

---

## APPLICATIONS

---

|                         |                                                              |
|-------------------------|--------------------------------------------------------------|
| <b>Coke Oven Plants</b> | Separating coke breeze from usable blast furnace coke lumps. |
| <b>Coal Washeries</b>   | Sizing raw coal before washing and dewatering clean coal.    |
| <b>Stone Crushing</b>   | Grading aggregates, gravel and sand.                         |

## COMMON QUESTIONS

---

### What materials can it handle?

Mainly coke, coal and iron ore; also stone aggregates and other minerals.

### Can I change the output size?

Yes. The wire mesh screens are interchangeable with different aperture sizes.

### How many sizes can I get at once?

A 3-deck machine gives 4 output sizes (oversize + 3 grades).

### What motor does it use?

Typically a 1440 RPM, 3-phase induction motor from 7.5 HP to 15 HP.

### Is the vibration adjustable?

Yes, by changing the counterweights on the flywheels / eccentric shaft.
