# Coal Charging Car

Top Feed - Coke Oven Machinery Series

## AT A GLANCE

A rail-mounted charging car (larry car) for top charging of coke ovens. Four conical hoppers deliver measured coal into the oven chambers.

## KEY SPECIFICATIONS

HOPPER CAPACITY

**4 - 20 Tons**

TRAVEL MOTOR

**15 HP (Elec.)**

CHARGING MOUTHS

**4 Nos.**

OPERATION

**Gravity Feed**

## SPECIFICATIONS

|                   |                             |
|-------------------|-----------------------------|
| Hopper Capacity   | <b>4 / 8 / 15 / 20 Tons</b> |
| Long Travel Motor | <b>15 H.P.</b>              |
| Travel Speed      | <b>60 - 80 m / min</b>      |
| Charging Mouths   | <b>4 Nos.</b>               |
| Hopper Plate      | <b>8 mm, Conical</b>        |
| Slide Gates       | <b>Motorised, 3 H.P.</b>    |

## DESIGN & DURABILITY

- ✓ Four conical hoppers in 8 mm plate
- ✓ Worm reducer travel gearbox
- ✓ Motorised slide gates with manual override
- ✓ Telescopic sleeves limit smoke leakage

## BUYING INFORMATION

|                      |                                                                          |
|----------------------|--------------------------------------------------------------------------|
| <b>Lead time</b>     | Made to order. Ask us for the current lead time.                         |
| <b>Warranty</b>      | 1 year, as on all our machinery.                                         |
| <b>Installation</b>  | Installation supervision and commissioning available.                    |
| <b>Custom builds</b> | Capacity, motor power and dimensions matched to your plant and drawings. |

---

## HOW IT WORKS

---

### 01 Bunker Filling

The car stops under the coal tower and its 4 hoppers are filled with a measured coal blend.

---

### 02 Alignment

The car travels to the empty oven; telescopic sleeves align with the charging holes to limit smoke leakage.

---

### 03 Gravity Discharge

The bottom slide gates open and coal flows into the oven by gravity.

---

## APPLICATIONS

---

**Coke Ovens** Top-charged by-product recovery coke oven batteries.

**Steel Plants** Continuous production of metallurgical coke.

---

## COMMON QUESTIONS

---

### What travel system is used?

Rail-mounted track wheels driven by a 15 HP slip-ring or squirrel cage motor.

### How many charging mouths?

Standard configuration is 4, matching the 4 charging holes on the oven top.

### Is the discharge automated?

Slide gates are motorised (3 HP) for semi-automatic operation, with a manual override wheel.

### What safety features are included?

Hydraulic buffers, travel alarms and operator cabin heat shields.

### Can it handle wet coal?

Yes, the steep conical hoppers help wet coal flow.
